City Of Miami, Oklahoma Budget Message FY 2015-2016

Mayor Schultz

Introduction

The most important annual duty of all city officials is the presentation of the budget for the upcoming fiscal year. This is important not only because it ensures fiscal responsibility related to the public's money but it also is a planning document for the actions of the municipal government funded by these public funds.

Our senior staff has adopted a program entitled Working Together for a Better Miami. We are internally stressing trust, transparency, communication, customer service, and integrity as part of this program. As a bottom line theme, we are "Getting Our House In Order 2015".

In my short tenure as your City Manager, a common phrase I have heard from our staff is that a process, policy, or decision was by the direction of one or another city manager. As you can imagine, with the relatively frequent turnover in city managers in the last seven years, there has been a loss of focus related to financial and operational decisions made in the past and how those decisions would affect the future budgets.

At the same time, the City has taken on two major planning projects. The first being a comprehensive wage and salary study and implementation, the second being the comprehensive plan for Miami. Both ongoing projects will ultimately bring about goals and objectives for future budgets to ensure our resources are applied to specific identified outcomes.

As a result, "Getting Our House In Order" should also be the theme for the fiscal 2015-16 Budget.

Budget Highlights

There are five major items to discuss regarding the 2015-16 Budget. They all relate to general themes that were ongoing when I arrived or are starting to develop as part of the comprehensive planning process.

The first item is funding to continue a merit pay program started at the end of 2014. This program is designed to ensure all employees have measurable, understandable, and attainable goals for the upcoming years and have an objective evaluation to ensure those goals are met. Even during difficult financial times, it is important to ensure the city workforce is compensated equitably to maintain experienced employees because a high level of performance will be expected in return.

The second item relates to the continual balancing act of merging legitimate requests with limited resources to maintain a basic level of overall service. As our expenses continue to outpace revenues, it will be critical this fiscal year to identify efficiencies in service as a way to reduce costs, especially in the General Fund. **The current trends of revenue and expenses are not sustainable.**

The third item relates to one of the overall trends emerging from the comprehensive plan, the investment in community infrastructure, especially roads but also city facilities. This budget contains funds to continue some road improvements started by the .65 sales tax bond issue and take some of the first steps toward addressing the needs of other municipal facilities, including the Civic Center.

The fourth item also addresses another trend emerging from the comprehensive plan, improving the overall appearance of our community. This is not only being achieved by investments in city facilities and properties, but by also reinvigorating the city's code compliance activities by reassigning these duties to Emergency Operations.

The fifth item again addresses a final trend from the comprehensive plan, economic development. Funds have been budgeted to work toward acquiring and placing in service a rail spur to serve the northwest industrial park and the installation of high speed fiber optic technology in our community to start establishing an electric smart grid for Miami Public Utilities; high speed internet for industries, businesses, and citizens; and an alternative cable option to our consumers.

Conclusion

The overall goal of this fiscal year is to introduce best practices in our operations to provide consistency and transparency from fiscal year to fiscal year regardless of who serves the city in either an elected or appointed capacity. As the performance system and comprehensive plan programs are completed, additional detail will be added related to specific goals and accomplishments of all departments and divisions. It is also important to note that while there are several initiatives (such as the rail spur and fiber optic installation) that are designed to be investments in our future, revenue and expenditure trends will require planned, thoughtful, but necessary reductions in operational costs, especially in the General Fund. While many items in the proposed budget are fully intended to be implemented, actual expenditures will come at a later time after proper review by the Council and the citizens of Miami.

Respectfully,

Dean Kruithof,
City Manager

- **General Fund (GF)**

- Transfers:

- The total of the 3.65% sales tax (\$6,150,000) the City collects will be transferred into the Miami Special Utility Authority (MSUA) for debt service and debt coverage requirements, all but the voter approved .65% sales tax will be transferred back to the General Fund (\$5,054,795)
- \$2,414,501 from the MSUA for operating costs.

- Other Noteworthy Items:

- The proposed budget provides \$600 per employee per month for health insurance; this is up \$50 per employee per month.
 - Retirement contributions are budgeted at 13.26% of enumeration which is up from 13.22% in the FY 2014-2015 budget.
 - The proposed budget provides for \$75,000 for salary increases through the merit pay program.
- Contracted work with outside organizations is budgeted at \$145,000 plus \$37,500 in utility credit.
- Property insurance rates are projected to rise approximately 10% to \$440,000 in the proposed budget.
- For FY 2015-2016, \$2,414,501 will be transferred to the General Fund. This figure does not include capital outlay costs that were included in the FY 2014-2015 transfer of \$3,929,659. Even if that expense were included, the transfer has still trended down from the prior year.

- **Miami Special Utility Authority (MSUA)**

- Transfers:
 - \$2,414,501 will be transferred out of the MSUA Fund to balance the General Fund.
 - The total of the 3.65% sales tax (\$6,150,000) the City collects will be transferred into the MSUA for debt service and debt coverage requirements, all but the voter approved .65% sales tax will be transferred back to the General Fund (\$5,054,795). The .65% sales tax will be transferred to the Street Program Fund.
 - \$1,000,000 to the Street & Alley Fund, the same as in FY 2014-2015
 - \$217,000 to the Utility Improvement Fund
 - \$1,400,000 to the Capital Improvement Fund
- Other Noteworthy Items:
 - \$11,500,000 for the projected GRDA expense
 - \$850,000 to the Oklahoma Water Resource Board (OWRB) as a loan for the pretreatment plant
 - The proposed budget provides for \$75,000 for salary increases through the merit pay program.
- The water and sewer rates are scheduled for incremental increases through 2019.
