City of Miami, OK – Community Development Department

Certification of Code Compliance for Residential Locations
Without Municipal Utilities for the Previous One (1) or More Years

Effective: 06/02/15

To be eligible for municipal utilities, all applicants who request municipal utility service for a RESIDENTIAL (individually-metered housing unit) service location which has not been served by municipal utilities for the preceding one (1) year or more must demonstrate code compliance. The Applicant(s) is/are solely responsible for acquiring the signatures below and all for associated costs.

The undersigned licensed contractors each CERTIFY to the City of Miami, Oklahoma, and the Miami Special Utility Authority, a public trust, that:

1. The following proposed utility service location complies with all applicable requirements, each within their particular trade, of the *International Residential Code for One and Two Family Dwellings* as approved by the *Oklahoma Uniform Building Code Commission; AND*
2. I exercised due diligence and I did not observe any health and/or safety hazards (e.g. structural damage, mold, no smoke alarms, etc.) or code violations within my trade, and if I observed the same I DID NOT sign this certificate and I DID notify the City building inspector.

Service Location: _____

Electrical Contractor:
